ISO 9001 ED 2008
Certification
since 1998

SECURITY
MASE UIC
Certification
since 2000

Letman was created in 1984 by Roger Berutti, and quickly became recognized as a pioneer in its fields, dedicated to lifting & handling work and reflex glass level gauge maintenance.

Today, by associating other family skills with those of our teams, Letman has diversified into:

- **High pressure cleaning**
- **Exterior & interior painting**
- **Supply and laying of flexible and resin floor coverings**
- **Application of protective films to windows and installation of blinds**
- **Industrial maintenance of reflex glass level gauges**
- **Lifting & handling**

High pressure cleaning

Letman offers additional services to industry, local bodies and private individuals.

- **Industrial cleaning: loading stations, sheet metal apparatus**
- **Facades and floors: cleaning and protection**
- **Graffiti: removal and anti-graffiti protection**
- **Drain clearing**
- **Damp sand blasting**
- **Work site machinery cleaning**
- **Boat hull cleaning**

Protective films for windows, and blinds

Supply and application of protective films for windows:

- **Solar protection film:** avoids overheating of the premises, decreases dazzle effect and improves aesthetics
- **Energy-saving film:** reduces heat loss in winter and decreases heat entry in summer
- **Safety film:** protects people and goods from Impacts or explosions, dissuades break-ins and theft
- **Anti-spy film:** protects from outside viewing while letting light through
- **Vertical film blind:** reduces heat by up to 92% and dazzle effect by up to 97%
- **Protection against UV fading** up to 99%

Interior & exterior painting

Flexible and resin floor coverings

Letman ensures a high level of technical skill, total reliability and reactivity serve all work sites we are entrusted with.
