INDUSTRIAL MAINTENANCE

■ REFLEX GLASS LEVEL GAUGES ■ LEVEL GAUGES

INNOVATIVE & EXCLUSIVE  
process

**QUALITY**  
ISO 9001 ED 2008  
Certification  
since 1998

**SECURITY**  
MASE UIC  
Certification  
since 2000

## Reflex glass level gauge maintenance

# When INNOVATION rhymes with REVOLUTION

### Maintenance without dismantling

A product of our 30 years of experience, we have been able to perfect our own special process. As innovative as it is exclusive, it enables your reflex glass level gauges to be cleaned **without dismantling**.

### An innovative procedure

While fully respecting the legislation in force and the environment, our interventions ensure your equipment is maintained without additional downtime for your activity.

>>> Our maintenance services:

- On site or in our workshop
- Unit operating or shut down

### Our work quality is certified

Letman is known for the quality of our interventions in different sectors of the petrochemical industry and we have already obtained several certifications:

- Since 1998: ISO 9001 certificate
- Since 2000: MASE UIC system (Company Safety Improvement Manual - Chemical Industry sector) Certification for safety, health and the environment

### A confidential “Technical and Commercial” maintenance list gives:

- Our technical treatment mode
- Our costing system
- Our commercial policy
- And the advantages offered by our service

Since 1984, Letman has made the maintenance of reflex glass level gauges a specialty among our core activities.

Reinforced by our recognized experience, today Letman has devoted considerable efforts and skill to providing you with a major innovation:

**>>> AN EXTRANET dedicated to the daily recording of your level gauges maintenance.**

All you need to ensure less stress at work and an increased sense of security, with a true long-term partnership.

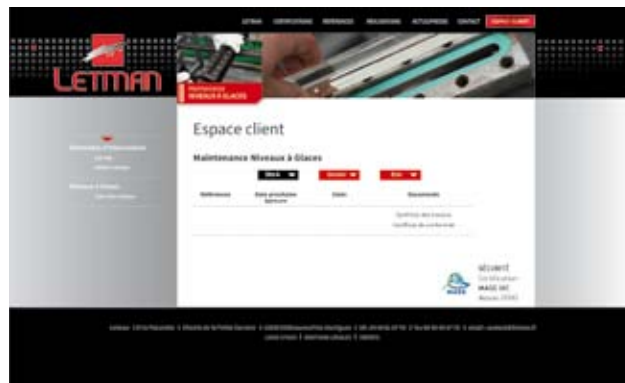

## INNOVATION

Reflex glass level gauge maintenance **WITHOUT DISMANTLING**

## REVOLUTION

Letman has set up a customer-centered service in order to simplify your daily life

1 **Scheduling of the checks to carry out with alert messages on your site and at Letman**

6 **Observations for prevention**

2 **Follow-up of the checks carried out**

5 **Certificate supplied for the works**

3 **Works followed at time "T"**

4 **Report on the works carried out**

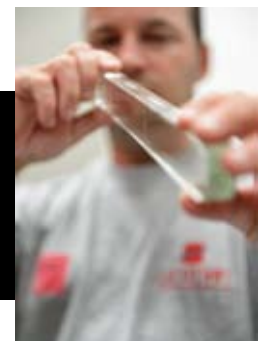

### Follow-up & Traceability

#### ■ Innovative dedicated EXTRANET Service

to trace the unitary details of the works carried out on each level gauge

### Personalized maintenance contract

- We offer you a 5-year total maintenance contract.
- With the Letman team, you benefit from:

**Reactivity**

**Reliability QHSSE**

(through the strict French Quality, Health, Safety, & Environment System)

**Traceability**

**Follow-up organization**

**Costing**

**Adaptability**

■ Don't hesitate to contact us for more information!
